

$$\begin{bmatrix}
 B_{11} & B_{12} & \cdots & 0 & 0 \\
 B_{21} & B_{22} & B_{23} & \cdots & 0 \\
 \vdots & \vdots & \ddots & \vdots & \vdots \\
 0 & \cdots & \cdots & \ddots & \cdots \\
 0 & 0 & \cdots & \cdots & B_{nn}
 \end{bmatrix}$$

A diagram of a square matrix with a shaded lower triangular region. The region is bounded by a diagonal line from the top-left to the bottom-right. The width of this shaded region is indicated by a double-headed arrow at the bottom left, labeled "band size". The matrix elements are arranged as follows: the top row contains B_{11} , B_{12} , an ellipsis, 0, and 0; the second row contains B_{21} , B_{22} , B_{23} , an ellipsis, and 0; the third row contains vertical dots, vertical dots, a diagonal ellipsis, vertical dots, and vertical dots; the fourth row contains 0, an ellipsis, an ellipsis, a diagonal ellipsis, and an ellipsis; the bottom row contains 0, 0, an ellipsis, an ellipsis, and B_{nn} .

$$\begin{bmatrix}
 B_{11} & B_{12} & \cdots & 0 & 0 \\
 B_{21} & B_{22} & B_{23} & \cdots & 0 \\
 \vdots & \vdots & \ddots & \vdots & \vdots \\
 0 & \cdots & \cdots & \ddots & \cdots \\
 0 & 0 & \cdots & \cdots & B_{nn}
 \end{bmatrix}$$

A diagram of a square matrix with a shaded lower triangular region, similar to the one on the left. The matrix elements are arranged as follows: the top row contains B_{11} , B_{12} , an ellipsis, 0, and 0; the second row contains B_{21} , B_{22} , B_{23} , an ellipsis, and 0; the third row contains vertical dots, vertical dots, a diagonal ellipsis, vertical dots, and vertical dots; the fourth row contains 0, an ellipsis, an ellipsis, a diagonal ellipsis, and an ellipsis; the bottom row contains 0, 0, an ellipsis, an ellipsis, and B_{nn} .
